New Azaleas disponible for 1912

1° VERVAENEANA ALBA, the pure white Vervae-
neana for Christmas ; Winter and Easter flowering : this
novelty has all the good qualities of Vervaeaneana, while it
does not sport to that break red like the mother variety.

Price \$ 0,25 — 0,40 — 0,50 — 0,75 — and 1,00 each.

2° MADAME AUGUST HAERENS, Cross of Haerensiana
and Simon Mardner, a very large double variety beautiful
form of a charming rose color, shaded with crimson, and
crimson blotch very free blooming, with a fine dark green
foliage, lightly brownish, the growth is very strong and
vigourous, each branch keeps a bouquet of its enormous
flowers straight up, it is an Easter variety without forcing.

Price \$ 0,25 — 0,40 — 0,50 — 0,75 — and 1,00 each.

EASTER GREETINGS

3° Might be called HEXE GRANDIFLORA ; it is
descendant of Hexe and one of our seedlings of Camile
Vervaeene, the flower is of the Hexe or Firefly type with
two rows petals nicely undulated, some times semi double
in center, the color a very pleasing crimson, little lighter
than Firefly ; it is very free blooming giving always three
and often four flowers per bud, it will bloom with little
forcing in February and can be kept back until May.

It will be an ideal Easter Azalea ; the elegant growth,
the dark green foliage and its unequalled keeping qualities,
make it of much greater value for grefting than Firefly ; it
has the graceful growth and habit of Camile Vervaeene,
while Hexe or Firefly is too stiff when grefted.

Price \$ 0,25 — 0,40 — 0,50 — 0,75

VENUS

4° Seedling cross of flambeau and Postmaster Stephan, the most brilliant dark red, semi double, flowers very free, for Easter; a good keeper nice green foliage, quite an improvement on the old flambeau.

Souvenir WILLIAM W. EDGAR

5° Has for seed parents M^{me} Vander Cruyssen and Ernest Eeckhautte; the flower is a very fine double, bright rose, nicely fringed with a large dark crimson blotch, a very pleasing free blooming variety with fine foliage and habit; for winter and Easter flowering.

Price \$ 0,25 \$ 0,40 — 0,50 each few larger.

WINFRIED HAERENS

6° A giant flower of nearly four inches diameter, very double, deep crimson shaded with shining pource, the flower petals are very strong; the entire flower is very vigorous and keeps on the plant for a long time in a fresh and pleasing condition; every florist will believe in its extra commercial value, when they know that this variety is a descendant of Professor Wolters and the first choice from hundreds of seedlings.

Price \$ 0,25 \$ 0,40 \$ 0,50 each.

STAR OF SOMERGEM

7° A very double lilac crimson shining flower, very free blooming, with little forcing, for the 15th Febr.; no trouble to keep it back until April; the growth is very fine and gracious, the foliage is of the finest among Azaleas, dark green glossy brownish, keeping good in transit, a very promising variety.

Price \$ 0,25 \$ 0,40 \$ 0,50 \$ 0,75 each.

FAN SHAPE AZALEAS, N^{rs} ACCORDING THIS LIST

CHRISTMAS STAR

8° Seedling of flambeau and Postmaster Stephan, a double shining scarlet, flowering for Christmas, the first variety of that color for early, it is a greatly improved flambeau, worth a serious trial.

Price \$ 0,25 \$ 0,50

Latest Novelty in Azalea culture

I give my patrons the opportunity to procure for their fancy trade the newest article in Azaleas.

The FAN SHAPE AZALEA

grown in my nurseries only and exclusively for my customers. A fine collection of a few hundred FANS in the best sorts is at hand, my choice of varieties I quote as follows :

1 st size good Fan Shape.		\$ 1,00 each

P. S. Only a few are disponible of the two largest sizes.

INDIAN AZALEAS

Are grown on a very extensive scale in a prime quality stock. All plants are of a good round shape, compact and bushy. The best varieties are grown in quantities and as a rule I give purchasers the choice of the leading sorts ; a large stock in M^{me} Vander Cruysen, from \$ 1,00 to \$ 4,00 is on hand, D. Perle and Vervaeneana are also well represented at these prices.

I quote the sizes approximatively as the size will vary with different sorts even if of same age. I always endeavour to give full value, and therefore would ask to order by letter or money quotation, in preference to order by inches.

IMPORTANT NOTICE

I grow limited quantity of half stam Azaleas, in a few popular varieties such as V. D. Cruysen, Vervaeneana, Vervaeneana Alba etc.

The stams are from 10 to 16 inches high, crowns very rond shaped are from 16 to 26 inches, the diam: is about 2 inches less for the same price, than this of the common stock.
